LETR International Conference
"Year in Review" Video Presentation

Each year for the LETR International Conference our production team creates a fun and entertaining video presentation featuring Program submitted photographs called the "Year in Review." We are again extending the opportunity and invitation to all LETR programs to submit their Torch Run® photos for this project.

Each Program is encouraged to submit a maximum of eight (8) digital photographs, observing the below listed requirements, depicting the finest moments of their Torch Run® events from this past fundraising year. Photos can be from any Torch Run® event including Tip-A-Cop®, Polar Plunge®, T-Shirt sales, Torch Run®, Summer Games and the like. Get creative show us what great events you have going on in your LETR Program. The ICPC production team will combine all usable photos into four separate 3 minute videos to be shown during the General Sessions at the conference.

PHOTO REQUIREMENTS At least 1 MB minimum per digital photo required; compressed files cannot be used. Programs may submit a maximum of 8 photos total. In order to create the highest quality presentation, Programs should submit only high resolution digital photos in JPG file format. Photos should be minimally 1 MB per photo to achieve the necessary resolution for a sharp image projection on the IMAG screens at the conference. Photos taken with a cell phone are typically not suitable for projection. Additionally, photos that have been compressed for emailing or do not meet the above minimum file size requirements are unusable for this project as the quality and clarity of these compressed files is severely compromised and therefore cannot be used. Your assistance in providing digital images that meet these minimum requirements is much appreciated.
